STARVING BOY

George Vance, a 21-year-old southrner, pleaded guilty today in the poice court to stealing a bicycle owned by H. C. Olsen but declared that he had been unable to get work and was desperate as a result of hunger when he took the wheel. The young man was arrested in Salt Lake yesterday when he tried to dispose of the bi-cycle and Sergeant Mohlman brought

lm to Ogden last night. Vance said he was born in Louis ville, Ky., and was left an orphan when three years old. He had lived with a grandmother until she died seven years ago and since that time had been without a home.

"You knew it was wrong to take the bicycle, didn't you?" asked Judge Reeder of Vance.
"Of course I knew it was wrong.

but what's a fellow to do when he can't get work and is starving to death," replied the prisoner.

The judge took the matter under

WEBER STAKE AT **GLENWOOD ON** SATURDAY

All of the Sunday schools compos-ing the Sunday School union of Weber stake have been working for several weeks on a monster outing to be held at Glenwood park next Saturday. It is to be one of these good, oldfashioned outings that they used to enjoy on the 4th of July—when we all went out early; took the lunch bas-ket and stayed the whole day. While the affair is being planned

by the people of the Weber stake Sunday schools, it is the intention of the officers that the invitation be ex-tended to every man, woman and child who enjoys this kind of a healthful

VOCATIONAL TRAINING

most desirable of the industries through which to train the mind and whom are rejoicing over the deserved hand at one and the same time. Curiously enough the efforts that prac-25c to Ogden Canyon tical printers are making in supplemental trade education are in the other direction from that advocated by the pedagogs. Long years of ex-perimenting have shown to the printof typography by a method which requires letters to be picked up in the form of type, placed in a stick, ep.ced, justified, and proved in a printing-press. For the purposes of multiplying copies of any piece of literature, this procedure justifies it self, but for the education of the in dividual pupil it is wasteful of time extravagant, and a reversion of educational principles. The I. T. U. Course of Supplemental Education in The I T. Printing uses in the main, a drawing-board paper and pencil, and the efficiency of these means for the pupil to work out his exercises has been proven conclusively. The public gehools are working at a method which the printing trade has found of little value and has thrown away The ability to set type is acquirable any intelligent boy or girl in very few days, but an apreciation of words, spelling, grammar and rhetori-English, in short—may take a very ery long time, and much longer if filtered through the clumsy, slow and expensive method of typesetting for the expression of the individual.

TAX VALUE OF A COMPANY IS

County Clerk Samuel G. Dye has received the list of assessments made by the state board of equalization of corporations operating in Weber coun-ty not assessed by the county assessors, as follows:

Denver & Rio Grande com pany Central Pacific company... Oregon Short Line company 1,007,087 590,886 Union Pacific company..... Sait Lake & Ogden company 553.966 Ogden Rapid Transit com 187.843 Mountain States Telegraph & Telephone company Utah Light & Railway com-190,807 pany Utah Power & Light com 395,077 116,642 pany Wells Fargo Express com-9,912 pany American Express company. Western Union Telegraph company Postal Telegraph 22:915 Private car companies 26.110

\$3,502,564 The valuation of the same proper-ties last year was \$3,216,373, showing

a gain this year of \$286,191.

There is a question, however, in the mind of the county clerk whether the state board has included all the holdings of the Utah Power & Light company in the assessment. The hold-ings of this company in Weber counare assessed at only \$116,642 when is known that the company paid over \$500,000 for the Davis & Weber countiel canal company's power plant at Riverdale, and about \$179,000 for the distributing system and o property of the Merchants' Light Power company of this city. Besides that, the company paid a large sum of money for the Telluride Power & Transmission company's high tension tower transmission lines across the county, consisting of two systems of towers, one of wood, the other of steel It is said that the company's holdings eash nearly \$1,000,000. The clerk's office will have som-

thing to do between now and August in checking up on the estimates made by the state board and in determining and segregating values for each dis-trict of the county. There is not a district in the entire county that will not derive some benefit from the assessed values in road taxes that are required, all the property of the cor-porations being subject to the special road taxes that may be voted by the people. The segregation must be completed on or before the first Mon-

MAN'S MURDER IS A MYSTERY

Los Angeles, Cal., June 26,-Detectives were still in doubt today as to the probable motive for the murder of Charles E. Pendell, the wealthy mone lander found beaten to death last night at his office desk. Two diamond Francis X. Bushman in study, said to be sufficent in themwere missing from Pendell's apparel and a considerable amount of money, it is believed; but the theft also of a book in which he kept a personal record of his dealings with borrowers complicated the situation.

According to Harry Pendell, a son of the dead man, his father was threatened recently by "a Kansas rancher" who claimed he had been cheated by the money lender. A search for this man was instituted

face to smother outcry should the victim recover after his assailant had

Chicago is also in the minded the detectives of the assault a year ago on William Reid, a diamond broker. That crime was thought to be the work of profes-sionals and they were somewhat in-clined to place Pendell's murder at the same door.
